

Latest Tube2 fixes

Update on March 22.

Some technical and functional fixes were made yesterday on Tube.

Workspaces

All English language study modules are now listed in the proper language, in English.

Students can create ZIP-packages of the documents in the workspace.

Workspace announcements distributed as email contain a hyperlink to the actual announcement.

The missing hyperlinks in the documents will be transferred this week.

Contact information

Contact information shows Metropolia staff only.

Minor improvements in the offing

On week 13 the first of minor improvements will be done based on your feedback. The target is the usability of workspaces.

For more information: Tapio Ekholm

Developments and problem situations

During the implementation of the Tube2 we collect suggestions on improvements and developments. Please give your suggestions in [Tube2-development](#).

In encountering problems please contact the User Support at <https://helpdesk.metropolia.fi> or helpdesk@metropolia.fi

Describe your problem in detail to ensure a prompt solution. Give the date, time and i.e. the name of the workspace or code or the name of the announcement and the error message, if any.
