

PaperCut Web Print

What is it?

Web Print is a PaperCut printing system's feature, that makes it possible to print out PDF documents from any computer. You can upload a document from your own computer, from home or from anywhere to be printed on a Metropolia multifunction printer.

How does it work?

Via browser interface, you can transfer a PDF document in to the system and select your printing options. You can pick up the print job from a multifunction printer just like all print jobs.

How do I use it?

1. Browse to <https://print.metropolia.fi> and login with your Metropolia user ID.

The service can be accessed also from outside of Metropolia.

2. In the panel on the left, select **Web Print**.

3. Click on **Submit a Job**.

4. Select a printer that suits your needs and click on **2. Print Options and Account Selection**.

Notice!

You can pick up A4 print jobs from any multifunction printer.

A3 print jobs must be picked up from a A3 multifunction printer.

At the moment you can print to A4 color and black and white queues only.

Select a printer:

PRINTER NAME ▼	SIJAINITI / OSASTO
<input type="radio"/> papercut\Canon Color Print A4 WP (virtual)	A4, 2-sided Printing, Auto [Color/B&W]
<input type="radio"/> papercut\Canon Color Print A4 WP 1-sided (virtual)	A4, 1-sided Printing, Auto [Color/B&W]
<input type="radio"/> papercut\Canon Print A4 WP (virtual)	A4, 2-sided Printing, Black and White
<input type="radio"/> papercut\Canon Print A4 WP 1-sided (virtual)	A4, 1-sided Printing, Black and White
